EDUCATION

Open University Malaysia Bachelor of Information Technology with Hons	Petaling Jaya, Selangor Jan 2026 – Present
Kolej Vokasional Kuala Krai Diploma in Information Technology	Kuala Krai, Kelantan August 2023 – August 2025

EXPERIENCE

EUC Engineer Mesiniaga Berhad	September 2025 – Present Petaling Jaya, Selangor
- Resolved rate of over 60% for common endpoint and workplace technology issues on first encounter. - Collaborate closely with internal networking and infrastructure teams to investigate and resolve major incidents impacting daily business operations within UEM Sunrise, ensuring minimal downtime and timely service restoration. - Reduced average ticket resolution time by 20%. - Created technical documentation and troubleshooting guides, reduced recurring tickets by 15–20%.	
IT Support Intern Mesiniaga Berhad	April 2025 – August 2025 Petaling Jaya, Selangor
- Supported over 100+ end users across multiple departments during internship placement. - Assisted in the deployment and configuration of 50+ laptops and desktops. - Develop foundational knowledge in endpoint management, IT operations and infrastructure support. - Successfully transitioned from IT Support Intern – EUC Engineer, based on performance, technical capability and contribution to daily IT operations.	

PROJECT

Serverless AI-Powered Cloud Facts on AWS <i>API Gateway, Lambda(Python), DynamoDB, IAM, Bedrock(Nova Lite), Amplify</i>
- Built a serverless web application that delivers AI-enhanced cloud computing facts. - Developed a Python AWS Lambda function to retrieve facts from DynamoDB - Configured Amazon API Gateway with CORS to integrate securely with Amazon Amplify - Designed a scalable, fully managed architecture using AWS serverless services.
